

A04-0087 04-23-03

Application Form

Eaton Hydraulics

Name of facility*

Eaton Corporation

Name of parent company (if any)

795 W. Alexander Avenue

Street address

Street address (continued)

Greenwood, South Carolina 29646

City/State/Zip code

Give us information about your contact person for the National Environmental Performance Track Program.

Name Mr./Mrs./Ms./Dr. Mr. Don Westbrook, MSPH, CSP

Title Environmental, Health, and Safety Manager

Phone (864) 943-4478

Fax (864) 943-4557

E-mail doncwestbrook@eaton.com

Facility/Company Website www.eaton.com

* If you are applying for multiple facilities, you must call 1-888-339-PTRK(7875)

Why do we need this information?

EPA needs background information on your facility to evaluate your application.

What do you need to do?

- ♦ Provide background information on your facility.
- ♦ Identify your environmental requirements.

Section A

Tell us about your facility.

1 What do you do or make at your facility?

Eaton Hydraulics - Greenwood Plant manufactures and assembles hydraulic vane pumps for Industrial and Mobile Markets. The plant produces an extremely diverse range of pumps used to supply fluid flow and maintain pressures in hydraulic systems. The facility consists of 153,000 square feet under roof located on 48 acres in Greenwood, South Carolina.

2 List the North American Industrial Classification System (NAICS) codes that you use to classify business at your facility.

NAICS
333996 _____

3 Does your company meet the Small Business Administration definition of a small business for your sector?

☐ Yes ☒ No

4 How many employees (full-time equivalents) currently work at your facility? If you checked "Yes" in question 3 and have fewer than 50 employees at your facility, then you are considered a "small facility" by the Performance Track Program.

- ☐ Fewer than 50
- ☐ 50-99
- ☒ 100-499
- ☐ 500-1,000
- ☐ More than 1,000

5 Complete the Environmental Requirements Checklist on pages 32-38 of the instructions and enclose it with your application.

Section A, continued

Expiration Date:

- 6 Optional: Is there anything else you would like to tell us about your facility? Do you participate in other voluntary programs at the local, tribal, State, or Federal level?

The plant follows all applicable OSHA, EPA, state, and federal regulations and has been recommended for certification in ISO 9000 Rev 2000, ISO 14001, and OHSAS 18001. We have invested in a World Class Wastewater Treatment Facility. Several large corporations have visited the facility on benchmarking tours.

The Greenwood Plant's vision is to be the premier environmental, health and safety organization within the hydraulics industry. We seek to have Eaton Hydraulics - Greenwood Plant recognized as a leader in protecting its people, property, and surrounding environment and community. We have defined our organization as not only the manufacturing areas of our properties but also as the manufacturing areas of our suppliers. Therefore we not only have responsibilities to the Greenwood community but also to communities of our suppliers in North America and around the world.

Together with the Quality of Worklife Council, our facility has developed and implemented an Environmental, Health, and Safety Policy that emphasizes our commitment to reduce our environmental impact, to increase our impact on the health and safety of our workforce, to meet and exceed regulatory requirements, to involve the workforce and community in decisions affecting the environmental, health, and safety of our operations, and to continually improve the environmental, health, and safety arena.

The facility was operational for only a small portion of 2000 when Eaton purchased the facility from Vickers therefore, the past year that will be used is 2001.

Even though our EMS is relatively new, it has undergone one full cycle.

Why do we need this information?

Facilities need to have an operating Environmental Management System (EMS) that meets certain requirements.

What do you need to do?

- ♦ Confirm that your EMS meets the Performance Track requirements.
- ♦ Tell us if you have completed a self-assessment or have had a third-party assessment of your EMS.

Section B

Tell us about your EMS.

Read the EMS requirements on page 9-12 of instructions.
Tell us if your EMS meets these requirements for:

- | | | |
|----|--|---|
| 1 | Environmental policy _____ | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 2 | Planning _____ | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 3 | Implementing and operation _____ | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 4 | Checking and corrective action _____ | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 5 | Management review _____ | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 6 | Have you done a comprehensive review of all activities conducted at your facility that could impact the environment? (i.e., have you done an aspect analysis?) | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 7 | Have you classified your aspects based on their potential harm to the environment, on community concerns, and/or on other objective factors? (i.e., have you determined your significant aspects?) | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 8 | When did you last update your aspect analysis? (mo/yr) | January 21, 2003 |
| 9 | Have you completed at least one EMS cycle (plan-do-check-act)? | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 10 | Did this cycle include both an EMS and a compliance audit? | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 11 | Have you completed an objective self-assessment or third-party assessment of your EMS? | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |

0032

06/30/03

If yes, what method of EMS assessment did you use?

Self-assessment

☐ GEMI

☐ CEMP

☐ Other

OMB No. 2010-

Expiration Date:

Third-party assessment

☒ ISO 14001 Certification

☒ Other OHSAS 18001
Certification and
Corporate EHS
Compliance Audit

Why do we need this information?

Facilities need to show that they are committed to improving their environmental performance. This means that you can describe past achievements and will make future commitments.

What do you need to do?

Refer to the Environmental Performance Table in the instructions to answer questions 1 and 2.

Section C

Tell us about your past achievements and future commitments.

Part 1 You must report past achievements for at least two environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the instructions. Please quantify each of your aspects using the units listed for that aspect in the Environmental PTrack Information Hotline at 1-888-339-PTRK.

Note to small facilities: If you are a small facility, you must report past achievements for only one environmental aspect.

First achievement

1 What aspect have you selected from the Table on page 29-31?	Total Solid Waste	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	pounds	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	960,360	52,888
4 What are the years for which you are reporting these quantities?	2001	2002
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	0.92	1.0
6 What is your normalizing factor based on (e.g., production, employment)?	Production	

0032

OMB No. 2010-

06/30/03

Expiration Date:

<p>7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?</p>	<p>In 2001, this facility generated 960,360 pounds of waste consisting of fine metal particulate, water, oil based coolant, and tramp oil that had to be drummed and shipped offsite for treatment and disposal. In late 2001, a wastewater treatment system worth approximately \$2,000,000 was installed to allow for onsite treatment of this wastestream. This wastestream was reduced by 94.5% in 2002.</p>
---	--

Second achievement

1 What aspect have you selected from the Table on page 29-31?	Vulnerability and Potential for Releases	
2 What units are you using to quantify this aspect? (See Table, page 29-31.)	gallons	
	PAST	CURRENT
3 List the past annual quantity of the aspect (from two years ago) and the current annual quantity of the aspect (from the most recent year for which you have data).	11,000	0
4 What are the years for which you are reporting these quantities?	2001	2002
5 Estimate your past normalizing factor (Page 18 of the Instructions will help you calculate this.)	0.92	1.0
6 What is your normalizing factor based on (e.g., production, employment)?	Production	
7 You reported an improvement in the quantity of the aspect in Question 3. How did you achieve this improvement?	In 2001, this facility drummed up non-hazardous waste oil and wastewater and placed them outside the facility for storage prior to pickup. This left the facility vulnerable for spills and leaks to the environment as well as stormwater exposure. In late 2001, an addition to facility allowed for the construction of an indoor tank farm for storing wastewater and used oil. The indoor facility is equipped with secondary containment to prevent environmental release as well as a contained, covered, loading dock area to prevent environmental releases during fluid transfers.	

Part 2 You must make future commitments for at least four environmental aspects, and you must choose these aspects from the Environmental Performance Table on pages 29-31 of the Instructions. The aspects you select for your future commitments should be related to the objectives and targets in your EMS. Where possible, they also should be identified as having a significant environmental impact in your EMS. No more than two of your aspects can be from the same environmental category. If you're not sure how your objectives and targets fit into our aspects or whether your aspects are significant, call the PTrack Information Hotline at 1-888-339-PTRK.

Once you have chosen your four environmental aspects, then fill in all the necessary information for these aspects in the tables on pages 7-10 of this form. Please quantify each of your aspects using the units listed for that aspect in the Environmental Performance Table. Each table that you must fill in corresponds to one of the environmental aspects you have chosen.

0032

OMB No. 2010-

06/30/03

Expiration Date:

We will assume that your performance commitments are based on a constant production or employment level. If you would like to base your commitment on changing production or employment, please fill out optional questions 6a and 6b.

Note to small facilities: If you are a small facility, you must report future commitments for only two environmental aspects.

First commitment

1 What aspect have you selected from the Table on pages 29-31?	Total Solid Waste	
2 What units are you using to quantify this aspect?	pounds	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	1,174,090	880,568
5 What are the years for which you are reporting these quantities?	2002	2005
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.5
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	Production	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Establishing a pallet, paper, scrap metal, and cardboard recycling program at the facility.	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.		

Second commitment

1 What aspect have you selected from the Table on pages 29-31?	Hazardous Solid Waste	
2 What units are you using to quantify this aspect?	pounds	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	19,000	1,900
5 What are the years for which you are reporting these quantities?	2002	2005
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.5
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	Production	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Substituting a water-based latex paint used on our product for our current oil based paint. This substitution will allow the use of water to clean pump covers and flush the paint system instead of solvent, thereby reducing our hazardous waste associated with this activity by 90 percent.	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.	We are currently a small quantity generator of hazardous waste (<1,000 kilograms / 2,200 pounds per month). By going to a water-based paint we would be considered a conditionally exempt small quantity generator of hazardous waste.	

Third commitment

1 What aspect have you selected from the Table on pages 29-31?	Emissions of VOCs	
2 What units are you using to quantify this aspect?	pounds	
3a Is this aspect considered significant in your EMS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.		
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	14,349	7,175
5 What are the years for which you are reporting these quantities?	2002	2005
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.5
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	Production	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	Substituting several coatings with lower VOC content for the coatings currently in use. This is expected to lower our VOC emissions by 50%.	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.	<p>We have VOC limits established by SC DHEC for the following:</p> <p>12 month sum for total VOCs - 100 tons per year</p> <p>12 month sum for combined HAPs - 25 tons and for one HAP - 10 tons</p> <p>This commitment to VOC emission reduction far surpasses our current emissions as well as our permit requirements.</p>	

Fourth commitment

1 What aspect have you selected from the Table on pages 29-31?	Recycled/Reused Materials Use	
2 What units are you using to quantify this aspect?	pounds	
3a Is this aspect considered significant in your EMS?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
3b If no, please explain why you believe this aspect should be included as a performance commitment.	This aspect was not considered significant in our EMS because the material to be recycled is not considered hazardous and therefore did not get ranked as significant.	
	CURRENT	FUTURE
4 List the current annual quantity of the aspect and the annual quantity you are committing to achieve by the end of the third year of your participation in Performance Track.	0	7,560
5 What are the years for which you are reporting these quantities?	2002	2005
6a (Optional) What is your future normalizing factor. (Page 21 of the Instructions will help you calculate this.)	1.0	1.5
6b (Optional) What is your normalizing factor based on (e.g., production, employment)?	Production	
7 You committed to an improvement in the quantity of this aspect in Question 4. How do you plan to achieve this improvement?	We are planning to acquire a fractional distillation unit to recycle a non-hazardous solvent used to clean machined products prior to assembly. The distillation unit will allow for reuse of 90% of our non-hazardous solvent.	
8a Are you subject to Federal, State, tribal, or local regulatory requirements for this aspect?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
8b If yes, please list those requirements, including the quantitative limits and compliance deadlines that apply to you. Explain how your commitment exceeds requirements.		

Why do we need this information?

Facilities need to demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

What do you need to do?

- ♦ Describe your approach to public outreach.
- ♦ List three references who are familiar with your facility.

Section D

Tell us about your public outreach and reporting.

1 How do you identify and respond to community concerns?

We currently have an ISO 140001 procedure "Q2-55-01" that outlines our procedures about how to respond to community questions and concerns about our facility and business. All phone calls requesting information about environmental issues are directed to our EHS Manager. The EHS Manager in conjunction with the Human Resources and Plant Managers will formally respond to all inquiries by the community in a timely manner. These inquiries and responses are formally documented within our environmental management system.

2 How do you inform community members of important matters that affect them?

We attend the monthly meeting of the Greenwood County Local Emergency Planning Committee (LEPC) and discuss information about our facility that could potentially affect the community. We share this information with other local manufacturers, community first responders, local fire departments, government officials, hospitals, and concerned citizens.

3 How will you make the Performance Track Annual Performance Report available to the public?

- ☐ Website www.
- ☒ Newspaper
- ☐ Open Houses
- ☐ Other

0032

06/30/03

Section D, continued*Expiration Date:*

4 Are there any ongoing citizen suits against your facility? ☐ Yes ☒ No

If yes, describe briefly in the right-hand column.

5 List references below

	<i>Organization</i>	<i>Name</i>	<i>Phone number</i>
<i>Representative of a Community/ Citizen Group</i>	United Way of Greenwood	Betty Cobb Volunteer Coordinator	(864) 229-4103

<i>Other community/local reference (e.g., emergency management official or business associate)</i>	County of Greenwood	Bobby R. Smith Greenwood County Emergency Preparedness Director / LEPC Coordinator	(864) 942-8553

Section E

Application and Participation Statement.

On behalf of Eaton Hydraulics
[my facility],

I certify that

I have read and agree to the terms and conditions for Application and Participation in the National Environmental Performance Track, as specified in the *National Environmental Performance Track Program Guide* and in the *Application Instructions*;

- I have personally examined and am familiar with the information contained in this Application, including the Environmental Requirements Checklist. The information contained in this Application is, to the best of my knowledge and based on reasonable inquiry, true, accurate, and complete, and I have no reason to believe the facility would not meet all program requirements;
- My facility has an environmental management system (EMS), as defined in the Performance Track EMS requirements, including systems to maintain compliance with all applicable Federal, State, tribal, and local environmental requirements in place at the facility, and the EMS will be maintained for the duration of the facility's participation in the program;
- My facility has conducted an objective assessment of its compliance with all Federal, State, tribal, and local environmental requirements, and the facility has corrected all identified instances of potential or actual noncompliance;
- Based on the foregoing compliance assessment and subsequent corrective actions (if any were necessary), my facility is, to the best of my knowledge and based on reasonable inquiry, currently in compliance with applicable Federal, State, tribal, and local environmental requirements.

I agree that EPA's decision whether to accept participants into or remove them from the National Environmental Performance Track is wholly discretionary, and I waive any right that may exist under any law to challenge EPA's acceptance or removal decision.

I am the senior facility manager and fully authorized to execute this statement on behalf of the corporation or other legal entity whose facility is applying to this program.

Paperwork Reduction Act Notice

The public reporting and recordkeeping burden for this collection of information is estimated to average 40 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

The National Environmental Performance Track is a U.S. Environmental Protection Agency program. Please direct inquiries to 1-888-339-PTRK (7875) or email ptrack@indecon.com.

To submit your application:

- 1) E-mail the completed application to ptrack@indecon.com,
and
- 2) Fax the completed and signed Section E (**not** the entire application) to
(617) 354-0463.

If you cannot e-mail the application, mail a hard copy of the entire completed application to:

The Performance Track Information Center
c/o Industrial Economics Incorporated
2067 Massachusetts Avenue
Cambridge, MA 02140

Environmental Requirements Checklist

Use the Environmental Requirements Checklist to answer Question 5 in *Section A, Tell us about your facility*. This Checklist will help you identify the *major* Federal, State, tribal, and local environmental requirements that apply at your facility, but it is not an exhaustive list of all environmental requirements that may be applicable at your facility.

Fill in your facility information below and enclose the completed Checklist with your application.

Air Pollution Regulations*Check all that apply*

- ☒ 1. National Emission Standards for Hazardous Air Pollutants (40 CFR 61)
- ☒ 2. Permits and Registration of Air Pollution Sources
- ☐ 3. General Emission Standards, Prohibitions, and Restrictions
- ☐ 4. Control of Incinerators
- ☐ 5. Process Industry Emission Standards
- ☐ 6. Control of Fuel Burning Equipment
- ☐ 7. Control of VOCs
- ☐ 8. Sampling, Testing, and Reporting
- ☐ 9. Visible Emissions Standards
- ☐ 10. Control of Fugitive Dust
- ☐ 11. Toxic Air Pollutants Control
- ☐ 12. Vehicle Emissions Inspections and Testing

Other (you must list these if applicable)

- ☐ 13. Federal, State, tribal, or local regulations not listed above.
- ☒ 14. ID Numbers (specify whether State or Federal).
1240-0091-CG through CN (South Carolina Department of Health & Environmental Control)

Hazardous Waste Management Regulations

Check all that apply.

- ☒ 1. Identification and listing of hazardous waste (40 CFR 261)
 - ☒ - Characteristic waste
 - ☒ - Listed waste
- ☒ 2. Standards Applicable to Generators of Hazardous Waste (40 CFR 262)
 - ☒ - Manifesting
 - ☒ - Pre-transport requirements
 - ☒ - Record keeping/reporting
- ☐ 3. Standards Applicable to Transporters of Hazardous Waste (40 CFR 263)

- ☐ 6. Interim Standards for Owners and Operators of New Hazardous Waste Land Disposal Facilities (40 CFR 267)
- ☐ 7. Administered Permit Program (Part B) (40 CFR 270)

Other (you must list these if applicable)

- ☐ 8. Federal, State, tribal, or local regulations not listed above
- ☒ 9. ID Numbers (specify whether State or Federal).
SCD097640809 (State of South Carolina DHEC)

Hazardous Materials Management

Check all that apply.

- ☐ 1. Control of Pollution by Oil and other Hazardous Substances (33 CFR 153)
- ☒ 2. Designation of Reportable Quantities and Notification of Hazardous Materials Spill (40 CFR 302)
- ☒ 3. Hazardous Materials Transportation Regulations (49 CFR 172-173)
- ☒ 4. Worker Right-to-Know Regulations (29 CFR 1910.1200)
- ☒ 5. Community Right-to-Know Regulations (40 CFR 350-372)
- ☐ 6. Underground Storage Tank Regulations (40 CFR 280-282)

Other (you must list these if applicable)

- ☐ 7. Federal, State, tribal, or local regulations not listed above.
- ☐ 8. ID Numbers (specify whether State or Federal).

Solid Waste Management

Check all that apply.

- ☐ 1. Criteria for Classification of Solid Waste Disposal Facilities and Practices (40 CFR 257)
- ☒ 2. Permit Requirements for Solid Waste Disposal Facilities
- ☐ 3. Installation of Systems of Refuse Disposal
- ☐ 4. Solid Waste Storage and Removal Requirements
- ☒ 5. Disposal Requirements for Special Wastes

Other (you must list these if applicable)

- ☒ 6. Federal, State, tribal, or local regulations not listed above.
Greenwood County Solid Waste Disposal Permit (NO permit number referenced)
- ☒ 7. ID Numbers (specify whether State or Federal).
SC DHEC (SC24-0125G for medical waste)

Water Pollution Control Requirements

Check all that apply.

- ☒ 1. Oil Spill Prevention Control and Countermeasures (SPCC) (40 CFR 112)
- ☒ 2. Designation of Hazardous Substances (40 CFR 116)
- ☒ 3. Determination of Reportable Quantities for Hazardous Substances (40 CFR 117)
- ☒ 4. NPDES Permit Requirements (40 CFR 122)
- ☐ 5. Toxic Pollutant Effluent Standards (40 CFR 129)
- ☒ 6. General Pretreatment Regulations for Existing and New Sources (40 CFR 403)
Name of POTW Greenwood Metropolitan District -
ID # of POTW West Alexander Street Treatment Plant
- ☐ 7. Organic Chemicals Manufacturing Point Source Effluent Guidelines and Standards (40 CFR 414)
- ☐ 8. Inorganic Chemicals Manufacturing Point Source Effluent Guidelines and Standards (40 CFR 415)
- ☐ 9. Plastics and Synthetics Point Source Effluent Guidelines and Standards (40 CFR 416)
- ☐ 10. Water Quality Standards
- ☐ 11. Effluent Limitations for Direct Dischargers
- ☒ 12. Permit Monitoring/Reporting Requirements
- ☒ 13. Classifications and Certifications of Operators and Superintendents of Industrial Wastewater Plants
- ☐ 14. Collection, Handling, and Processing of Sewage Sludge
- ☐ 15. Oil Discharge Containment, Control and Cleanup
- ☐ 16. Standards Applicable to Indirect Discharges (Pretreatment)

Other (you must list these if applicable)

- ☐ 17. Federal, State, tribal, or local regulations not listed above.
- ☒ 18. ID Numbers (specify whether State or Federal).
GMD Permit # 028

Drinking Water Regulations

Check all that apply.

- ☐ 1. Underground Injection and Control Regulations, Criteria and Standards (40 CFR 144, 146)
- ☒ 2. National Primary Drinking Water Standards (40 CFR 141)
- ☐ 3. Community Water Systems, Monitoring and Reporting Requirements (40 CFR 141)
- ☐ 4. Permit Requirements for Appropriation/Use of Water from Surface or Subsurface Sources
- ☐ 5. Underground Injection Control Requirements
- ☐ 6. Monitoring, Reporting and Record keeping Requirements for Community Water Systems

Other (you must list these if applicable)

- ☐ 7. Federal, State, tribal, or local regulations not listed above.
- ☐ 8. ID Numbers (specify whether State or Federal).

Toxic Substances

Check all that apply.

- ☐ 1. Manufacture and Import of Chemicals, Record-keeping and Reporting Requirements (40 CFR 704)
- ☐ 2. Import and Export of Chemicals (40 CFR 707)
- ☐ 3. Chemical Substances Inventory Reporting Requirements (40 CFR 710)
- ☐ 4. Chemical Information Rules (40 CFR 712)
- ☐ 5. Health and Safety Data Reporting (40 CFR 716)
- ☐ 6. Pre-Manufacture Notifications (40 CFR 720)
- ☐ 7. PCB Distribution Use, Storage and Disposal (40 CFR 761)
- ☐ 8. Regulations on Use of Fully Halogenated Chlorofluoroalkanes (40 CFR 762)
- ☐ 9. Storage and Disposal of Waste Material Containing TCDD (40 CFR 775)

Other (you must list these if applicable)

- ☐ 10. Federal, State, tribal, or local regulations not listed above.
- ☐ 11. ID Numbers (specify whether State or Federal).

Pesticide Regulations

Check all that apply.
